On-Campus Student Housing

Top Reasons to Live On-Campus

You can have the Total College Experience...you have the rest of your life to live off campus!

1. Convenience- You don’t have to waste time hunting for a parking space before class. You can sleep longer and save a lot of money on gas.

2. Close to everything- You are just a short walk away from academic buildings, campus activities, and student services such as advising, and dining.

3. Have the time of your life- Don’t just go to school; join student organizations, attend events, conferences, special lectures; experience everything the campus has to offer.

4. You don’t have to cook- What could be better than to have several options available within walking distance? The cafeteria offers many home cooked options.

5. Personal support- With college life comes transition. You are not alone academically or socially when you live on-campus. You will be living with people who are going through, or who have gone through, the same experiences. The Housing Director that lives on campus is always available for support, assistance and advice.

6. Academic success- Research of college students across the nation shows that students that live on-campus are more satisfied with their college experience, earn high grade point averages, and are more likely to graduate than their commuting peers.
