**Frequently Asked Questions**

1) Who should my student call if something is not working properly in the room?

The student can visit the Housing Supervisor and fill out a Work Order Request which is then given to the Dorm Maintenance Supervisor.

2) What if my student and his/her roommates can't get along?

The first step is to ask your student to discuss the concerns with his/her roommate(s) and try to resolve the conflict together. Many times, clarifying communication and expectations between roommates is the first step in successfully navigating a roommate conflict. If the conflict remains unresolved, your student should ask the Housing Director for advice/guidance in the situation. If issues persist, together as a team they will work out a solution.

Remember that this is probably your child's first time living on their own away from you. They need time to grow and make adjustments in order to be successful adults. It is best that as parents you strive to have your child handle these situations as described above and not by having you call the school. Legally, after your child turns 18 and moves onto our campus, we are not allowed to discuss with you anything without their permission.

3) What laundry facilities are available?

There is a laundry room on the north side of the Housing Supervisor's house for on-campus students to use. It is equipped with coin-operated washers and dryers that only accept quarters. The student will need to also furnish their own laundry detergent and other laundry supplies. There is also another self-service laundry mat in downtown Beloit.

4) How long does the housing contract last?
